Supplementary Figure 1. Map showing the number of years with at least one TC at each grid cell throughout the study period (1948–2015).
Supplementary Figure 2. Map of the mean seasonal (JJASON) TCP (mm yr⁻¹) using a similar search radius (500 km) as Nogueira and Keim (2011).
Supplementary Figure 3. Map of the mean seasonal (JJASON) TCP (mm yr\(^{-1}\)) using a similar search radius (500 km) and study period (1960–2007) as Nogueira and Keim (2011).
Supplementary Figure 4. Map of the mean seasonal (JJASON) contribution (% yr$^{-1}$) of TCP to seasonal precipitation using a similar search radius (500 km) as Nogueira and Keim (2011).
Supplementary Figure 5. Map of the mean seasonal (JJASON) contribution (% yr\(^{-1}\)) of TCP to seasonal precipitation using a similar search radius (500 km) and study period (1960–2007) as Nogueira and Keim (2011).
Supplementary Figure 6. Map of the total TCP (mm) associated with Hurricane Georges (September 24, 1998 to October 01, 1998) using a 223-km search radius.
Supplementary Figure 7. Map of the total TCP (mm) associated with Hurricane Georges (September 24, 1998 to October 01, 1998) using a 500-km search radius.
